## 'Olohe Malu - Ancestral Teachings of Aloha

**E komo mai! Welcome! You are invited to experience the journey of aloha from the voice of the Pacific that is calling us together in the oneness of the ancestral portal.**

E komo mai, come into the realm of oneness as we explore our many expressions of life as humanity on this planet of love. E komo mai, come in to the garden of life that speaks the language of oneness from the doorway of the ancestors.

'Olohe means to listen. It is also a messenger of spirit that comes through guardians of sacred knowledge and wisdom, keepers of wisdom that are offered specific teachings from the land, sea, sky and universes beyond. Malu means calm, peaceful, splendid in unity with all. Malu is also a fragrance of gentleness that caresses the senses with softness and sensitivity.

'Olohe Malu means to listen to the quivering of the ancestors. If you look at a coconut leaf gently moving, this is the quivering of the ancestors. They are ever present but not always heard. 'Olohe Malu means to listen to the quivering of the ancestors with the senses of the heart.

'Olohe Malu offers to participants a way of connecting to the portal of innocence, light and remembrance in the ancestral ways of embracing the spirit of oneness in diversity.

Through the traditions of the Pacific and the teachings of Kukuipuka Heiau, a sacred temple of healing - chant, protocols, prayers, music and dance are woven in a lei of aloha that celebrates our oneness as diversity, and wholeness as humanity and divinity. Talk story, music, movement, meditation, play and hands-on experiences will bring us in to the breath of the ancestors and the wisdom that is offered to each one.
